Clinical Guidelines for the Management of Diabetes

Schaller Anderson of Arizona, L.L.C. has adopted the American Diabetes Association Standards of Medical Care in Diabetes – 2008. Executive summary report can be found at:

http://care.diabetesjournals.org/cgi/reprint/31/Supplement_1/S5

These guidelines are distributed under a quality improvement/utilization management program in order to identify criteria for appropriate and effective use of health care services and consistency in the care provided to plan enrollees. The guidelines are not intended to: (i) supplant the duty of a qualified health professional to provide treatment based on the individual needs of a patient; (ii) constitute procedures for or practice of medicine by the party distributing the guidelines; or (iii) guarantee coverage payment for the type or level of care proposed or provided.
