

Missouri Care, an Aetna Medicaid Plan uses the following clinical decision making hierarchy in making clinical determinations:

1. Criteria required by applicable state or federal regulatory agency or client contract.
2. Milliman Care Guidelines®, 15th Edition
3. Aetna Clinical Policy Bulletins (CPBs)

For review of behavioral health services, Missouri Care also uses:

1. Level of Care Utilization System© (LOCUS)
2. Child & Adolescent Level of Care Utilization System© (CALOCUS)
3. American Society of Addiction Medicine Patient Placement Criteria, Second Edition, Revised© (ASAM PPC-2R)
